Scotty Cameron Studio Select H putters feature a heavier head (+10g) to provide a heavier feel preferred by some players. With the addition of Studio Select H, available in 34" and 35", the Scotty Cameron Studio Select line can be customized for length, weight, lie angle and grip type. Studio Select H models are custom built at Titleist and are identified with a special Circle H shaft band. For more information, explore www.scottycameron.com

Note: 33" not available in the H configuration

STUDIO SELECT™

MORE OPTIONS - Eight models are available in five different length and weight combinations to fit any putting stroke or style.

BODY AND NECK CHOICES - Multiple body styles suit different appearance preferences. Multiple neck styles provide different amounts of toe flow through the stroke.

TOUR VALIDATED - Each design is based on Scotty's experience working with the best players in the world. Scotty Cameron by Titleist putters have been #1 on the PGA Tour since 1997.

ENHANCED HEEL-TOE WEIGHTING - Circular weight screws located in the heel and toe increase stability and MOI for a larger sweet spot and solid feel.

HIGH TOE PROFILE - The toe sits higher than the heel to reduce the tendency to raise the toe at address which aims the putter left of the target.

SOFT 303 BODY - Soft, precision milled 303 Stainless Steel body creates a crisp sound with great feel.

BOLD RED TOUR GRAPHICS - Tour inspired, three red dot cosmetics.

STEPLESS SHAFT - Stepless shaft provides a clean appearance at address and delivers a soft, yet solid feel.

HEADCOVER - Silver headcover with bold red tour graphics.

GRIP - Red Cameron Cord grip for great feel.

FACTORY CUSTOM WEIGHTS

Circular heel-toe weights provide greater stability by reducing head rotation on off-center impacts. Weights can be factory customized to make the head feel heavier to suit specific putting green conditions.
